Dear Dr. Green:

You were fabulous! Your fund of historic knowledge of Heber City, the Valley and Midway was stimulating, so impressive. It was so gracious of you to give us the grand tour. We had Pen Women from all over the nation and they thoroughly enjoyed your commentary and the mountain country.

As I mentioned, I am doing a story about your area and would appreciate info on the history of the Heber Tabernacle, and any other significant preservation/restoration projects. Also, anything about the early settlements and the people. May I hear from you soon as I am leaving for England early July and will be gone most of that month. Will appreciate your help.

Thank you, thank you for the wonderful tour. I am enclosing my brochure on the Logan Historic homes. I have to do three tours in the next five days. Let me know if you are coming up for some of our events. Give one of the brochures to Ted Pritchard, and give him my thanks, too.

Best wishes,
